## Improvement Requests

Are you planning on undertaking any projects this winter or spring? If so, please remember to submit an Architectural Control Committee (ACC) request before beginning your project. This step is essential to ensure everything goes smoothly and aligns with our community guidelines.

To submit your request, simply log into your Spectrum account. Once you have received approval, you are all set to start your project. Please remember that even "like for like" improvements require prior authorization. Our amazing volunteers on the committee are dedicated to providing quick responses, typically within 7 days or less. The process is straightforward and painless, ensuring there are no issues once you get started.

Thank you for being such great neighbors and for your cooperation in maintaining the beauty and harmony of our community.
